

John Stokes Square Redevelopment Project update

The redevelopment of John Stokes Square is progressing well. We would like to provide an update on what will be taking place over the coming weeks.

Nightcliff Police Station

- Local contractor, Halikos Group commenced construction in late-March.
- Site remediation works are currently underway and are expected to take four weeks to complete.
- You will notice an increase in heavy vehicle movements, noise and vibration in the area.
- All efforts will be made to minimise disruption where possible.

John Stokes Square Residential Development

- The public tender for the construction of the residential precinct has recently closed and is currently under assessment.
- The construction contract is expected to be awarded in May 2020.
- Construction of the residential precinct is anticipated to start mid-2020.

Headworks

- Construction of headworks is expected to commence later in 2020.
- Construction of headworks includes storm water drainage; electrical, water and sewer reticulation; road layout; shared paths; landscaping and lighting; public open space; and car parking.
- Please see attached information regarding the anticipated changed traffic conditions and worksites during headworks construction.

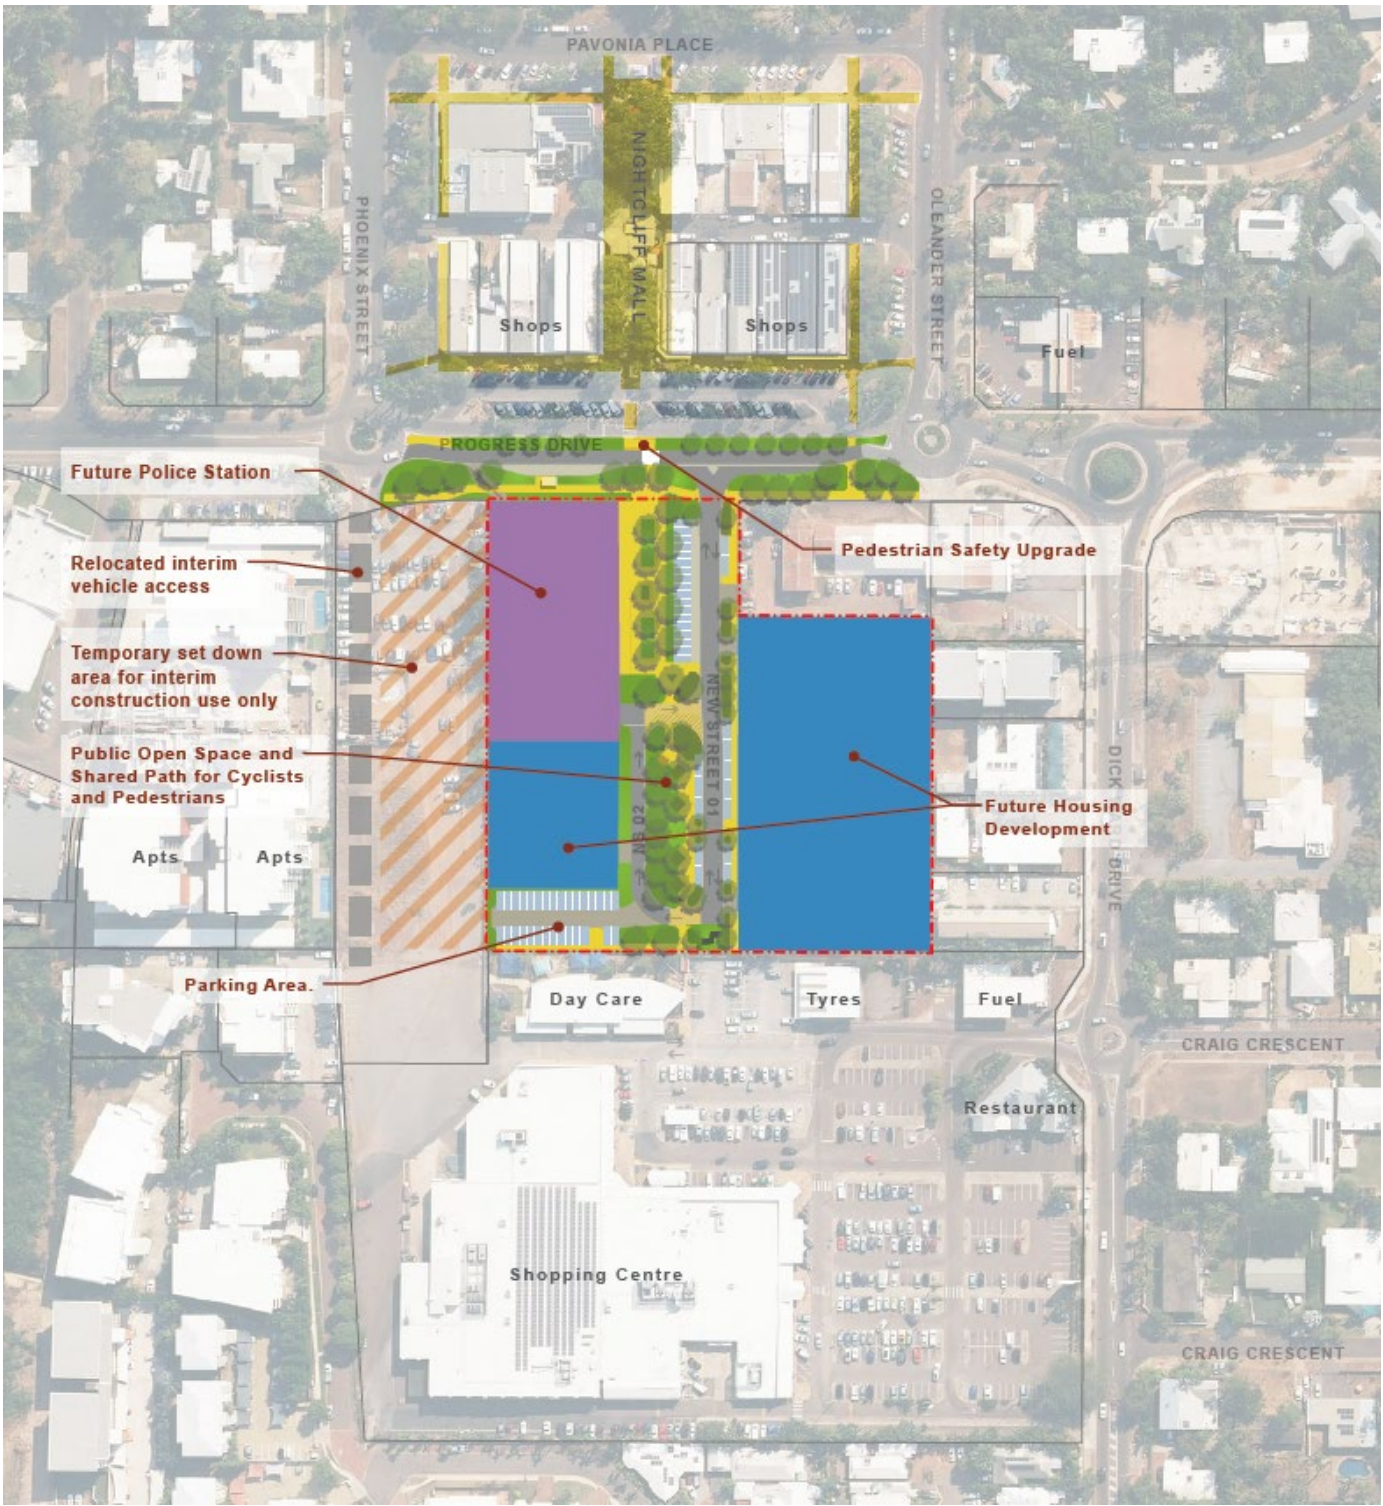

Temporary Set Down Area

- Preparation of 61 Progress Drive, Nightcliff (a privately owned vacant lot) is underway.
- This vacant lot is adjacent to the construction worksite (refer attached map) and will be utilised as a temporary set down area for contractor site amenities, materials and equipment throughout construction.
- This site does not form part of the John Stokes Square Redevelopment and at project completion will be returned to its original condition.

Contact

Communication with stakeholders including land owners, businesses and residents will be ongoing throughout the design process and during construction.
