

Central Arnhem Road Upgrades

Stakeholder Update

Dear Stakeholder

The Northern Territory Government is delivering long term upgrades on Central Arnhem Road.

A construction tender to upgrade 18 kilometres near Mountain Valley Station (from Ch158 km to Ch176 km) has been awarded to local company Allan King & Sons Construction.

Construction on this portion of Central Arnhem Road is expected to start in September 2024.

The upgrades will include sealing, reconstructing, widening and flood immunity improvements. This will improve connectivity, flood immunity, road safety and accessibility.

Works will be conducted Monday to Friday between the hours of 7am to 6pm. Traffic management will be in place for the duration of works.

These works form part of the program to upgrade nine priority sections of Central Arnhem Road. \$355 million has been committed to deliver upgrades, including \$280 million from the Australian Government and \$75 million from the Northern Territory Government.

For more information on completed, current and future works visit dipl.nt.gov.au/projects, email transport.planning@nt.gov.au or phone 08 8924 7118.
