OVERVIEW OF UPDATES – TRANCHE TWO

MAJOR BUILDING WORKS SPECIFICATION

Updates have been rolled out for a tranche of updated worksections for the specifications for Major Building Works. There were URLs which needed to be replaced and technical content has been updated. The significant changes are shown in the table appearing below.

Further tranches of updated work sections will be rolled out in the coming months. Each tranche will have between 10 and 15 worksections. Tranche one, comprising 30 worksections, was rolled out on 14 September 2017.

FEEDBACK

If you have any suggestions for improvement, such as additional or modified text for the Master Specification for Major Building Works, please contact the Manager Specification Services, Telephone 8946 5021, Fax 89237661 or e-mail to specification.services@nt.gov.au
