Darwin City bus stop and route changes

Effective 28 September 2020

Dear Stakeholder,

From Monday 28 September, outbound public buses and bus stops are moving back to Cavenagh Street. From this date the new timetable and route changes will be effective.

All outbound Smith Street bus stops will be decommissioned and reinstated back to normal traffic conditions.

Timetable and route changes

From 28 September, the new bus route will exit the city via Cavenagh Street, not from Smith Street.

Buses will enter the city via Daly and Mitchell Streets, travel through to the interchange on Harry Chan Avenue, then exit the city via Cavenagh Street through Daly Street.

There will be minor changes to timetables across the wider Darwin and Palmerston network. School and urban bus services will stop at St. Mary’s Catholic Primary School bus stop.

For more information, email public.transport@nt.gov.au or call 08 8924 7666.

‘B’ light road rules

The Territory's first ‘B’ light will be installed at the Cavenagh Street and Garramilla Boulevard intersection near the new Cavenagh Street bus stop (Woolworths).

When the ‘B’ light turns white, and the red light is on, only buses can go. All other road users including cyclists must wait until the traffic lights change to green.

Australian Road Rules penalties apply.
