

Mango Roads Upgrade and Seal

Construction commencing

Works to upgrade three key sections of 'Mango Roads' in the Territory's most productive mango growing regions is commencing.

This project is jointly funded by the Australian Government, Northern Territory Government and Litchfield Council.

The Northern Territory Government is delivering the Mango Roads project with essential upgrades to:

- Chibnall Road between Old Bynoe and Leonino Road (5.4km)
- Mocatto Road between Whitstone and Acacia Gap Road (3.2km)
- Horsnell Road between Elizabeth Valley Road and Alverly Road (3.4km)
- Kentish Road between Hopewell Road and the end of seal (3.2km) – 2021 (future tender).

Works to upgrade the first three roads is due for completion in January 2021.

A tender for the upgrade of Kentish Road will be released in the 2020-21 wet season to be constructed in the 2021 dry season.

The Mango Roads project will upgrade and seal four roads in the Litchfield municipality. Sealing of these roads will improve access and connectivity between mango farms, packing sheds and export markets as well as improve road safety for contractors, workers and residents.

The Northern Territory Government and its contractor will work with local residents and businesses to maintain access during construction. A map of the areas is shown on the back of this flyer.

Contact information for project updates

The project team is compiling a list of affected and interested stakeholders and would like to obtain your contact details so that you can receive regular communication about the project.

Visit <https://dipl.nt.gov.au/projects/mango-roads-upgrade-and-seal> for more information on Mango Roads upgrade and seal and to sign up to receive project updates electronically.

For construction related queries, please contact communications.dipl@nt.gov.au or call (08) 8946 5156. For queries about rates or road related matters, please contact Litchfield Council on (08) 8983 0600.
