

Mango Roads corrective works

Chibnall Road – Lane closures

As part of the Mango Roads upgrade and seal project corrective works are required on Chibnall Road in Acacia Hills.

Works are commencing 8 July 2024 and are expected to be completed by 15 July 2024.

A 150m section of Chibnall Road will be closed to traffic to enable works to be undertaken one lane at a time. Temporary traffic lights will be used to provide continued access to one lane at a time. The location of the works on Chibnall Road is shown on the map below.

Road users and motorists are asked to adhere to all traffic management and signage in place.

The Mango Roads project will improve access and connectivity between mango farms, packing sheds and export markets as well as improve road safety and access for contractors, workers and residents.

This project is jointly funded by the Australian Government, Northern Territory Government and Litchfield Council.

Contact information for project updates
