

Myilly Point

Asbestos investigation

Dear stakeholder,

The Northern Territory Government has committed an investment of \$3 million to improve Myilly Point with landscaping and the construction of recreation areas to activate the area as community space.

This project will benefit the local community by creating a vibrant active space for everyone to enjoy.

Asbestos has been observed within the current work site. It is essential that an asbestos investigation is completed before work on the landscaping, exercise station and playground commences.

The asbestos investigation will take place on site from 16 to 24 December 2019.
