

Myilly Point – Playground Precinct Site Asbestos Remediation

Dear stakeholder,

Asbestos remediation of the playground precinct site has been approved to commence in order to enable the playground precinct to proceed.

Baseline noise and vibration monitoring is being undertaken over the coming weeks and prior to the remediation works commencing.

The proposed date for commencement is Monday 11 May with mobilisation to site on Tuesday 5 May.

Remediation works are being completed in accordance with all applicable regulations and Australia Standards and in liaison and conjunction with the NTEPA and NT Worksafe. An environmental auditor and independent hygienist have been engaged on the project and air monitoring will be undertaken throughout the remediation works.
