TIGER BRENNAN DRIVE DUPLICATION WORKS COMMENCING

Jointly funded by the Northern Territory and Australian Governments, work is now commencing on the duplication of Tiger Brennan Drive from Woolner Road to Berrimah Road.

During the month of December, the following activities will be carried out:

- Installation of safety barriers at various locations between Woolner Road and Berrimah Road
- Mobilisation of heavy earth moving equipment and preliminary investigations for hard rock cutting
- Back ground noise monitoring along property boundaries in Bayview and Woolner
- Mass soil mixing mobilisation and testing

Installation of the safety barriers will take place over a 10 day period. To minimise disruptions, work will occur outside of peak hour travel. Some night work will be required away from residential areas.

In the interest of public safety, temporary speed restrictions will be in place where required.

Motorists are urged to travel with care in the area and adhere to all traffic management in place.

For more information, contact the Communication and Community Engagement Team on 1800 820 455 or email tiger.brennan@nt.gov.au
