

# Myilly Point – Playground Precinct Site

## March 2021 Update

Dear Stakeholder,

The Myilly Point playground development project is nearing completion.

The Department of Infrastructure, Planning and Logistics has worked closely with its contractor, DTA Contractors Pty Ltd, to complete the playground following remediation works to the playground site (Zone 1) to remove asbestos containing material.

The remainder of the Myilly Point site outside the playground area (Zone 2), continues to be affected by asbestos containing material. Signage will be installed notifying the public, and regular inspections will be undertaken by the Department to identify and remove asbestos should it become exposed.

For any enquiries, please contact the Department of Infrastructure, Planning and Logistics' Communications Unit on 08 8924 7028 or email [communications.dipl@nt.gov.au](mailto:communications.dipl@nt.gov.au).

For more information on this project visit [www.dipl.nt.gov.au/projects](http://www.dipl.nt.gov.au/projects).

Thank you for your patience during these works to revitalise Myilly Point.

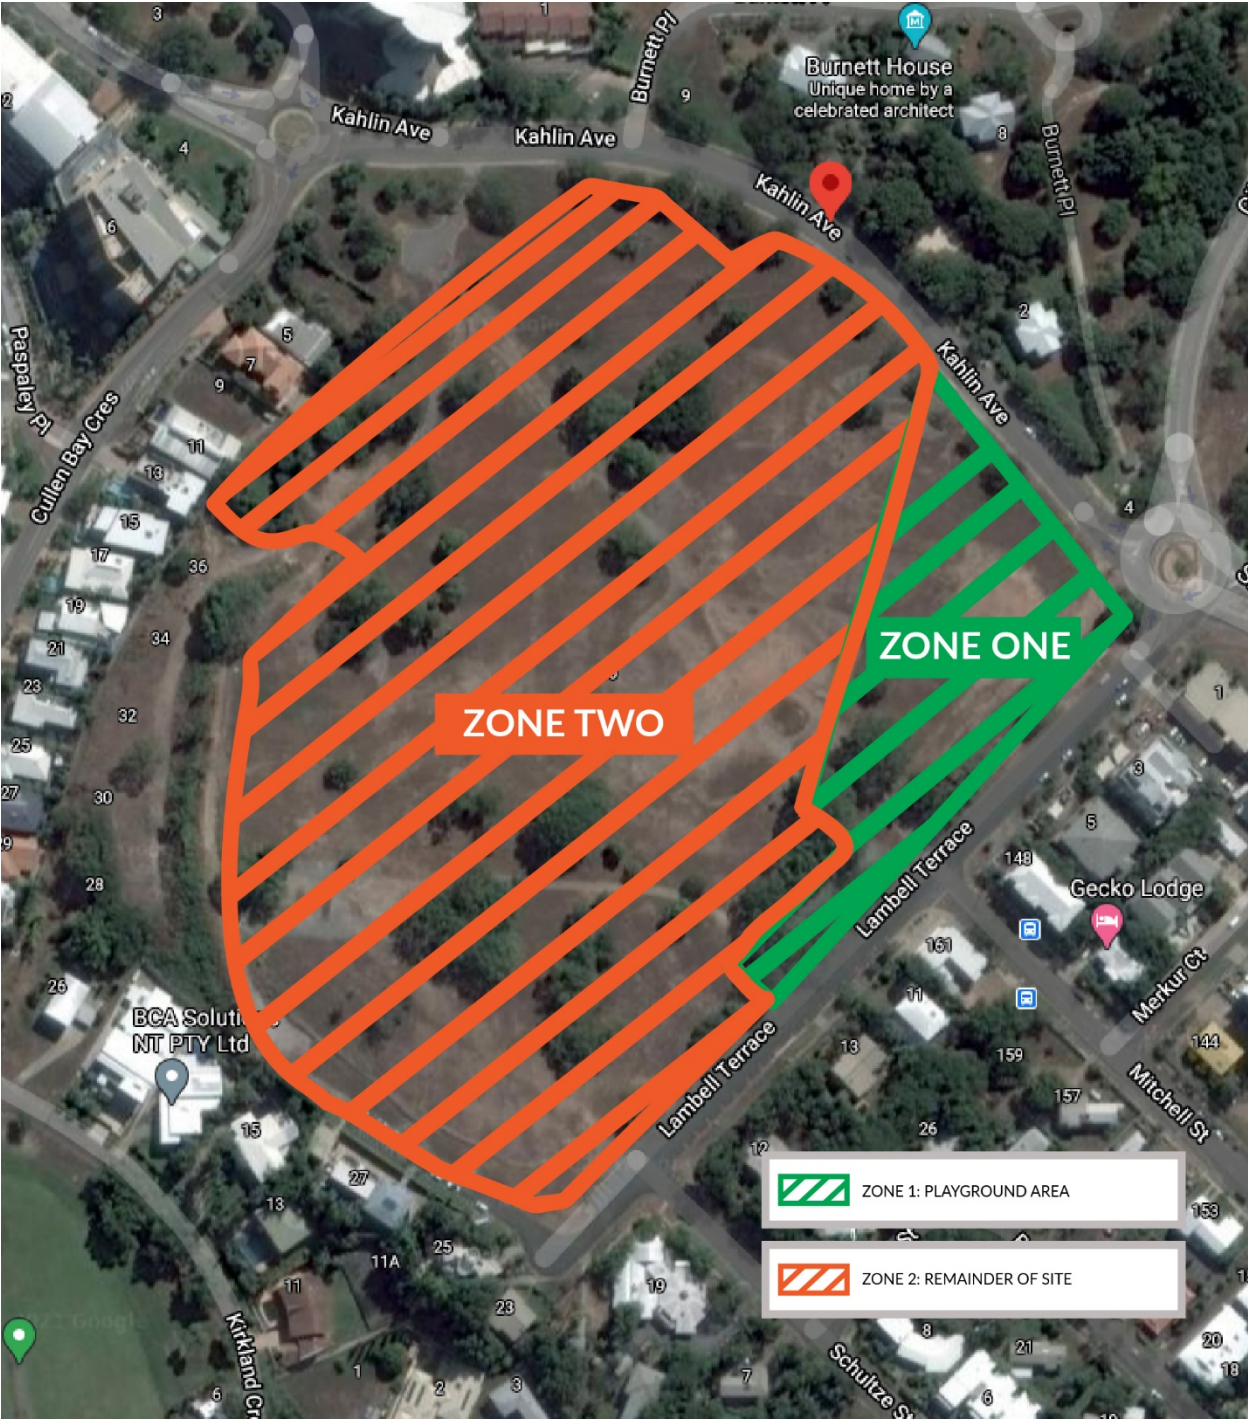

Past land use has resulted in Asbestos Containing Material (ACM) being dispersed across this site.

The Northern Territory Government is managing the site to maintain public safety, by regularly inspecting and removing surface ACM

Pieces of suspected ACM may be present on the ground of this site. Please do not pick up or remove any suspected ACM from the site. Disturbance of ground and excavation is not permitted on this site.

For information please contact Crown Land Management on 8999 6151 or email [Crownland.estate@nt.gov.au](mailto:Crownland.estate@nt.gov.au)

*Signage to be installed*
